

Bulletin

Your source for Wave 2 Implementation Project
news and information

November 28, 2023 / Issue #26

All issues of the ONE Bulletin are also available on the ONE Health Information Technology Services (ONE HITS) website at www.necare.ca/bulletins/.

ONE Bulletins are published on Tuesday afternoon each week. Submit your article idea using the [ONE Bulletin Submission Form](#) no later than the Thursday before the week in which you want it to appear.

This week's news:

- [ONE HITS - Staffing Updates](#)
- [PM Round Table](#)
- [Printer Configuration](#)
- [Parallel Testing](#)
- [Training Update](#)

ONE HITS Staffing Updates

Join us in congratulating Rene Melchers on his retirement in December. 🎉

The entire ONE HITS team thanks Rene for his dedication to the ONE HIS project and wishes him all the best in his next chapter. Over the next few weeks, Rene's responsibilities will transition to Business Project Manager, Kevin Bryanton.

PM Round Table

The PM Round Table is adjusting the standing agenda for scheduled weekly meetings. The upcoming Project Update-focused meetings will focus on a 30-60-90 day outlook. It will be an opportunity to draw attention to homework requirements and site readiness updates. The next PM Round Table meeting will take place on 1 December, and it will focus on training and validation.

Printer Configuration

As printer servers become available, Site Leads will be notified by the Technical Task Force. TECH will complete the printer connection and hand off to the Management Information System (MIS). Once MIS has completed their work, additional configurations will follow for each application.

Parallel Testing

ONE HITS continues to finalize parallel testing dates with Member sites. All Site Leads should confirm their testing dates by December 8 with Tracy Leger (tracy.leger@necare.ca).

Training Update

- NEON Train-the-Trainer schedules are in development and will be shared at the 1 December PM Round Table.
- All MedPower course changes are completed. Moving forward, nursing staff will be enrolled into courses as follows:
 - Getting Started with Meditech
 - General RN/RPN
 - Additional courses as needed (Acute RN/RPN, ED, L&D, SUR)

Note: If a nurse works in several areas, they should take the *Nursing, All Access* course, which includes all the nurse training course content.

- Please continue to identify the MedPower Site Administrator for your site and their training time preference in the month of December.
